Experience

2020-present

School Psychologist

Community Unit School District 308

As a school psychologist at an elementary school, I played a pivotal role in enhancing the well being and academic success of students. I conducted thorough psychological assessments, providing invaluable insights into students' individual needs. Collaborating closely with educators, parents, and administrators, I helped determine the appropriate supports and services students needed to be successful.

2019-2020

School Psychologist Intern

School Association for Special Education in DuPage

As a school psychologist intern, I gained valuable hands-on experience in the field. Under the guidance of my supervisors, I conducted assessments, provided counseling, and contributed to the development of individualized individual education plans (IEPs). I participated in multidisciplinary teams, helping address the diverse needs of students. I also provided counseling to middle school students in the Deaf and Hard of Hearing Program and a high school student in the Visually Impaired Program in order to help them reach their counseling goals and be successful in school.
